Methodology and interpretation

Read alongside README.md and the semantic model measures

Each row is a plan; country and regional plan scopes are different.

The 46 plans comprise 23 HRPs, 9 regional plans, 8 flash appeals and 6 other.

Regional / multi-country totals are not allocated to individual countries.

Gap = requirements less funding; coverage = funding / requirements.

This is a fixed prepared snapshot, not a live funding feed.

See README.md for source, extract and allocation limitations.
