HUMANITARIAN FINANCING INTELLIGENCE

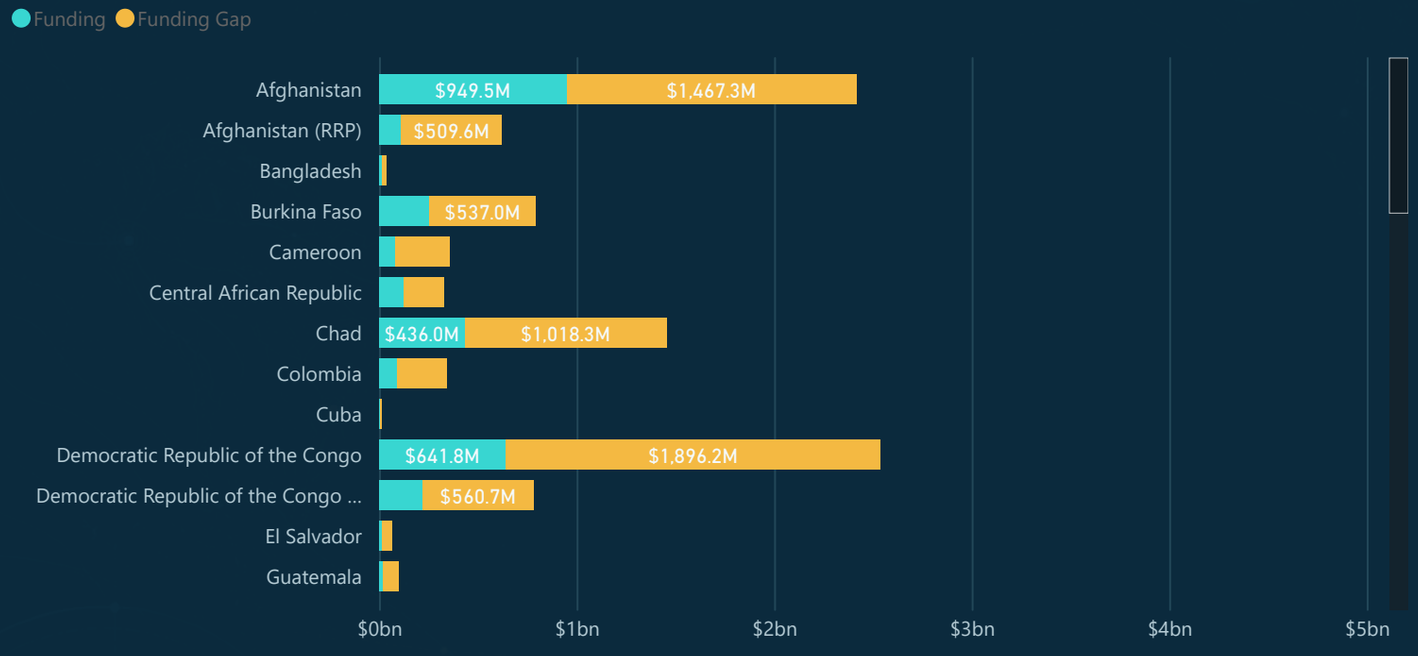

Funding Triage

OCHA FTS · 2025

A completed-year view of reported funding against released humanitarian response-plan requirements.

REQUIREMENTS	REPORTED FUNDING	UNMET REQUIREMENT	COVERAGE	RELEASED PLANS
$45.5bn	$15.6bn	$29.9bn	34.3%	46

PLAN FUNDING BULLETS · FUNDED VS GAP

LARGEST UNMET REQUIREMENTS

Decision rule: scale alone is not priority. Read the funding gap together with coverage and plan context.

Methodology & Sources

A transparent completed-year funding diagnostic using UN OCHA Financial Tracking Service data.

WHAT THIS REPORT MEASURES

REQUIREMENTS
Revised requirement for each released 2025 response plan.

REPORTED FUNDING
Funding flows reported against that specific response plan.

FUNDING GAP
Maximum of requirement minus reported funding and zero.

COVERAGE
Reported funding divided by revised requirements.

PRIORITY INDEX
Funding gap multiplied by the unfunded share. It is a transparent triage construct, not an OCHA indicator.

DATA FOUNDATION

SOURCE
UN OCHA Humanitarian Programme Cycle public API / Financial Tracking Service.

ANALYTICAL WINDOW
Released plans for 2025, used as the latest completed calendar year.

GRAIN
One released response plan. 46 plans after excluding records without requirements.

RECONCILIATION
Requirements: $45.47B
Reported plan funding: $15.59B
Unmet requirement: $29.88B
Coverage: 34.3%

Retrieved: 13 Aug 2026.

INTERPRETATION GUARDRAILS

- FTS data depends on voluntary and evolving reporting.
- Funding outside a specific response plan is excluded from plan coverage.
- Requirements and funding may be revised after the reporting year.
- Regional plans can span multiple countries; the displayed focus country is not the full geographic scope.
- Financial gaps are not equivalent to humanitarian severity, access constraints, delivery capacity, or lives at risk.
